

KZB 2

KZB 2 in practice

KZB 2 400 in practice

Most important features:

- 1 Feeder for sow and piglets
- Manufactured from high quality type 304 stainless steel
- 1/2" stainless steel water connection for the sow with male thread
- After a few days the piglets eat alongside the sow; saliva production starts
- The piglets do not experience a growth check at weaning
- Less pre-starter required
- Piglets reach target weight one week earlier
- At the end of the suckling period, the piglets are already used to solid feed
- Unique and very popular feeder for farrowing pens
- Best price/quality ratio in the market

The VERBA KZB liquid feeder is a very popular feeder for farrowing pens. It's easily accessible for both sows and piglets. During their first weeks, the piglets learn to eat with the sows. After weaning, the piglets no longer have to learn where to get their food from, and how the feeding trough works. The KZB feeder therefore has a low trough, and the dosing system is at a height that allows both the sow and the piglets to operate it. The best dose is 4 g per movement.

Guarantee: 3 Years on construction- and material faults; drinking nipples 1 year on construction faults. Drinking nipples are only suited for water, not for additives.

Options: 400mm wide instead of 310mm wide, Drinker for piglets on the side

	Single	FEED		W 310 x D 210 x H 1150	1	25	5-260 kg	1	19 kg	ARTICLE
		a-b-c	36 ltr							
KZB 2	Single	a-b-c	36 ltr	W 310 x D 210 x H 1150	1	25	5-260 kg	1	19 kg	A00-0071
KZB 2 400	Single	a-b-c	45 ltr	W 400 x D 210 x H 1150	2	25	5-260 kg	1	21 kg	A00-0072

Feed: a= pellet, b= crumb, c= meal, d=meal mixed with max. 35% CCM and/or weat/barley

The number of animals specified for each feed dispenser is an indication only and can depend on genetics, feed type, mineral regulations, legislation
